Tom:

I'm not overly enthusiastic about the possibilities of getting much from SKENEF-1; however, I would like to meet him and chat about his friends and business associates in the W/L Islands. He possibly might be used as an entree to reporting or support assets.

It would be my opinion that we would not have to bring his clearance up to date to chat with him.

Paul

I've not made any notes from the files; therefore, if Ed agrees to helping us, details should be forwarded to me prior to my departure for San Juan.

26 January 1965

MEMORANDUM FOR THE RECORD

SUBJECT: Antilles Material Company Limited (AMCO) -
Meeting with SKEWER/1 on the Relationship
of the Puerto Rican Cement Company to AMCO

1. As agreed in his 11 January 1965 meeting with SKEWER/1, Mr. Edward Stanulis telephoned SKEWER/1 on the morning of 18 January to arrange a meeting with SKEWER/1 at his convenience later in the day. SKEWER/1 suggested a meeting at 1500 hours that afternoon in his office at the [redacted]. He indicated to Mr. Stanulis that the Puerto Rican Cement Company looks with favor on AMCO and is doing business with it through its Manager, Mr. Alvin T. Philpotts, Jr.

2. Prior to the meeting, Messrs. Allen, [redacted] and Stanulis reviewed the approach to be made to SKEWER/1 in the light of his favorable view of AMCO. It was agreed that no mention would be made of the fact that AMCO is in poor financial condition or that Mr. Philpotts is inadequate as a manager. Stress would be laid upon assessment of the long-term commercial viability of AMCO because KUBARK is ostensibly interested in [redacted] a managerial position in AMCO, or some other similar firm, in order to monitor Castro's activities in the Caribbean area.

3. Messrs. Allen, [redacted] and Stanulis arrived precisely at 1500 hours at SKEWER's office on the second floor of the [redacted]. His male secretary asked us to take seats in the corridor outside his office. Within a few minutes his secretary reappeared and asked us to wait in the Conference Room. Some ten minutes later SKEWER/1 appeared and invited us into his private office. He was extremely cordial and gracious. Mr. Stanulis introduced Mr. Allen as a colleague who is assessing AMCO's commercial viability. He introduced [redacted] as a lawyer consultant who is obtaining background information in the event KUBARK should decide to proceed [redacted] officer in AMCO.

SECRET

4. Mr. Allen informed SKEWER/1 that KUBARK is assessing the factors bearing on the long-term commercial viability of AMCO.

One of the factors bearing on the commercial viability of AMCO is the relationship of the Puerto Rican Cement Company with AMCO and the terms of any agreements. We would also like his views on commodities other than cement which can be shipped from Puerto Rico to the outer islands and what commodities can be shipped on return voyages. Another factor of interest is competition in the shipping field.

5. SKEWER/1 indicated that he needed some clarification of KUBARK objectives. Mr. Stanulis reviewed KUBARK's

for the purpose of checking on Castro activities in the Caribbean area. SKEWER/1 assumed that Mr. Philpotts was the man in whom we are interested. Mr. Allen dispelled this assumption explaining that KUBARK has a candidate whom we would like to place if it is determined that KUBARK would seek to effect this. who, like SKEWER/1, has helped KUBARK in the past and would undoubtedly help again. SKEWER/1 said, "Oh, yes, through in the company." He then asked if Mr. Philpotts would know of KUBARK interest. Mr. Allen replied no, emphasizing that our interest should be closely held.

6. SKEWER/1 said that he had not realized that we wanted so much detail and asked if we desired to talk with the man in his company most familiar with AMCO. Mr. Stanulis declined, emphasizing that we wanted to keep our interest in this matter confined solely to SKEWER/1. SKEWER/1 immediately agreed to make the necessary telephone calls to obtain answers to our questions. As the basis for his inquiry, he would ask about the amount of credit extended by the Puerto Rican Cement Company to AMCO. SKEWER/1 then made a series of telephone calls to one of his subordinates named Tomas and also made one call to his son. The following information was obtained in the above telephone calls:

a. AMCO has 2 or 3 ships under charter and ships primarily cement to Martinique, Guadeloupe, Barbados, and Antigua.

SECRET

b. The Puerto Rican Cement Company has a verbal agreement with Mr. Philpotts granting him exclusive distribution of cement in Guadeloupe, Barbados, and Antigua.

c. AMCO currently owes the Puerto Rican Cement Company \$40,000 and is slow in payment.

d. The normal procedure for payment is for the consignee to pay Mr. Philpotts by a note which the Puerto Rican Cement Company discounts.

e. The Puerto Rican Cement Company is currently examining how much credit it can extend to AMCO. In this connection the company is examining whether credit extended to AMCO can be insured under the Foreign Credit Insurance Association. (FCIA insures 80% of export credit.) If so, the risk to the Puerto Rican Cement Company would be reduced and further credit could be extended.

f. The Puerto Rican Cement Company has sold 133,000 bags of cement to AMCO.

7. SKEWER/1 said that Mr. Philpotts is aggressive and that he is pushing Puerto Rican cement. [redacted] asked SKEWER/1 if his firm were worried about the amount of credit extended to AMCO. SKEWER/1 replied that AMCO is trying to help the Puerto Rican Cement Company and Puerto Rican Cement is in turn trying to help AMCO. SKEWER/1 imparted the impression that he has absolute confidence in his subordinates. In calling Tomas, SKEWER/1 said to us that he had gone over the head of his son. SKEWER/1 was not aware that AMCO Puerto Rico is a subsidiary of AMCO Panama. When apprised of this fact, he said that this arrangement is probably for tax purposes. SKEWER/1 left the impression that he considers AMCO as a Puerto Rican company and one worthy of support. He recalled that he had previously given a job to a Trujillo opponent, Fred Imbert, whom no one else would hire. Mr. Imbert now has his own shipping company and SKEWER/1 suggested that we assess his operation. He recalled that Mr. Trujillo had telephoned him about harboring a criminal. SKEWER/1 told Trujillo to mind his own business as would SKEWER/1. Mr. Stanulis indicated that KUBARK would not want to consider Fred Imbert's operation, given his family's involvement in the Dominican Republic. Throughout the conversation, the picture emerged of a man who trusts his subordinates and who would help an individual or firm, particularly Puerto Rican, which is also trying to help his firm.

8. Mr. Allen said that we would assess the situation carefully, and in the event it should be determined to proceed, we would advise him. Mr. Allen informed him that [redacted]

[redacted] Our friend is [redacted], who, as he surmised, is the top man in his firm. Mr. Allen revealed this information to SKEWER/1 in the event that it should be deemed desirable for [redacted] to negotiate with the Puerto Rican Cement Company. Conversely, in the event of ANCO's failure, it was felt that SKEWER/1 should know that KUBARK is not connected with any other participants. SKEWER/1 offered full cooperation. He had arranged his schedule to give us as much time as necessary. In our presence he received a telephone call in which he apologized for cancelling an appointment in order to accommodate us. It is considered that, as in his past relations with KUBARK, SKEWER/1 can be trusted and will help KUBARK in any way he can.

MEMORANDUM FOR: The Record

SUBJECT: Project WUBRINY--Antilles Materials Company, Ltd.,
Discussion by Mr. Edward Stanulis with SKEWER/1.

1. I made initial telephonic contact with SKEWER/1 at approximately 1100 hours on 10 January 1965 and made arrangements for a meeting in my hotel room for the following day between the hours of 1600 and 1700 to be followed by another on Tuesday at a time and place that would be convenient for SKEWER/1. Later in the day SKEWER/1 informed me that he would be unable to meet with us on Tuesday as he was leaving by air on the evening of 11 January for a series of appointments in the States.

2. The meeting with SKEWER/1 was held in my hotel room at 1645 hours on 11 January. I told SKEWER/1 that as he knew, one of KUBARK's prime information targets in Latin America concerned the activities of Castro's Cuba and that in this connection some of our people had been thinking for some time that it would be most useful in pursuing this requirement to have entree into shipping interests that were active in Caribbean waters. SKEWER/1 said he thought this idea excellent. I further stated that these people had heard that SKEWER/1's firm was discussing the possibility of entering into an exclusive Caribbean distributorship contract with Alvin T. Philpotts, Jr., who is associated with the Antilles Materials Company, Ltd. S. A. of Panama and Puerto Rico, and asked him if he had any knowledge of the individual or the negotiations. SKEWER/1 replied that he did not know of either, but that his son would be familiar with both.

3. I asked SKEWER/1 if he would be willing to investigate the situation discreetly without mentioning any interest on KUBARK's part and at the same time consider the commercial feasibility of the venture for AMCO. He agreed.

4. In elaborating on the basic concept, I told SKEWER/1 that if the

SKEWER/1 reiterated his conviction that the concept is an excellent one and said he would do all in his power to

help KUBARK achieve this objective.

5. I told him that I would appreciate his cooperation in meeting with two of my friends who are more fully versed in these matters. He agreed and set the meeting for Monday, 19 January 1965. SKEWER/1 gave me his unlisted private telephone number and suggested that I contact him Monday morning, 19 January 1965, to set time and place for the meeting. The number is 842-2120.

The meeting with SKENER/1 confirmed Mr. Philpotts' report that his relations with the Puerto Rican Cement Company are good. It also revealed the terms of the relationship between the Puerto Rican Cement Company and AMCO which Mr. Philpotts had not reported in detail to WUBRINY/2. It is obvious that Mr. Philpotts has sold himself to certain officials in the Puerto Rican Cement Company who have the confidence of the Company's top management. The extent to which Mr. Philpotts may have conned other businessmen into extending credit and the amount of such credit is a key factor for investigation by WUBRINY/1 and /2, and Mr. Malia on their forthcoming trip. It is feared that Mr. Philpotts has incurred so many debts that the firing of Mr. Philpotts and reorganization of AMCO would be prohibitively expensive.

MEMORANDUM FOR THE RECORD

SUBJECT: Antilles Materials Company, Ltd.

1. Mr. Ed Stanulis telephoned Mr. Allen at home from San Juan, Puerto Rico, on 11 January 1965. He met with SKEWER/1 as scheduled at 3 P.M. SKEWER/1 was not familiar with any negotiations between the Puerto Rican Cement Company and AMCO but agreed to look quietly into the matter. He made a telephone call to PR Cement's Sales Manager before he left for New York. SKEWER/1 said that he had such a heavy schedule on this trip, requiring his presence in New York, Chicago, and Connecticut, that he could not squeeze in a meeting with KUBARK representatives. He would, however, be glad to meet with KUBARK representatives in Puerto Rico on 18 January 1965. This delay would also enable him to investigate thoroughly the status of negotiations with AMCO.

3. Mr. Stanulis affirmed unequivocally to Mr. Allen his previous assessment of SKEWER/1, namely that SKEWER/1 will do anything to help KUBARK, particularly against Cuba. Mr. Stanulis will write a report upon arrival in Washington on or about 13 January 1965.

Operational and CI- Information

1. Subject was mentioned in two KAPOK Dispatches by the Chief of Station, San Juan, Puerto Rico, as a possible candidate through whom leads to persons in the Dominican Republic could be developed and targeted against the intelligence service and the ruling circles there. In MPBA-1223 and MPBA-941, both dated 11 September 1956, Subject is mentioned as a good person for the beginning of covert operations in the Dominican Republic because he was well known and considered discreet by those who knew him. Because of his businesses in the U.S. and the Caribbean area, Subject had many persons working for him over a period of years who owed him some allegiance. Subject's companies did much business in the Dominican Republic. SKEDADILE, the Station's contact, was instructed to approach him indirectly through a cut-out who was [redacted] a personal friend of SKEDADILE, a member of the Puerto Rican legislature, a senior member of the Republican (Statehood) Party, and very close to Subject.

2. Information in Subject's PRQ II revealed that he was assigned the cryptonym SKEVER/1. The case officer was introduced to Subject by one [redacted]

[redacted] on a strictly social basis in March 1950 (this was to be Subject's cover, and there was no monetary remuneration). Since Subject was considered a loyal U.S. citizen, he was made witting of KUBARK's interest in persons in the Dominican Republic who might lead to the target. He accepted to assist KUBARK in this endeavor enthusiastically. Although it was known that Subject once served as an honorary Vice Consul [redacted] a common practice for prominent businessmen in Latin America, he was not known to have any connections with a foreign intelligence service. His value to KUBARK lay in his personal knowledge of persons and facts in the Dominican Republic, particularly individuals who travelled there for legal reasons, as well as his social and political status. The case officer described Subject as "intelligent," "well educated," and "a political leader whose real strength is in his being an enlightened capitalist." Because he was (and is) so prominent, and could not withstand too much weakening of his position, he should not be used "directly" in any operation (in the opinion of the case officer who wrote the PRQ evaluation).

3. According to information in C-82843 (CI/OA File), WH/3/DRBH requested a POA on 4 May 1960 for permission to allow the use of Subject to "provide useful information on, or through witting or unwitting employees, courier access to the Dominican Republic." Results of Green List No. 100851 dated 4 May 1960 were "no pertinent identifiable information" on 17 May 1960, and a field trace reply of that date was "no derogatory traces." The POA was granted 31 May 1960 and the OA on 11 September 1960. These clearances were cancelled on 21 and 34 March 1961, respectively, in notices to CI/OA by WH/3/DRBH. Reasons for those cancellations were not given. On 24 August 1961, WH/4/Cuba requested a reinstatement of the OA, for use as an informant. The request was granted by CI/OA on 11 September 1961.

4. An investigation report by the Office of Security in 1960 was not unfavorable. It did make reference to information in an FBI report dated 19 May 1960, in Washington, D.C., which also appeared in the Subject's 201 file. This report contained the following information:

a)

b) In 1952, Subject reportedly offered a job to Elizer Curet Cuevas, a Communist Party member in Puerto Rico (sources not specified).

c) The FBI received information (source not specified) in 1952 and 1953 that Subject received mail from one Juan Antonio Corretjer, a former member of the Puerto Rican Nationalist Party.

HQ/HS Memorandum dated

d) At the request of the Justice Department, the FBI conducted an inquiry, under the Anti-trust Laws of the U.S., into the cement industry in San Juan, Puerto Rico during December 1958. An industrialist and financier, Subject reportedly controlled the cement industry in Puerto Rico. The Anti-trust Division Files of the Department of Justice contain the results of the inquiry.

5. The Chief of Station, San Juan, Puerto Rico, according to HPDA-1969 dated 4 January 1964, met with Subject in Ponce on 26 December 1963. At this time, Subject told the Chief of Station that he was considering the construction of two sizable plants (cement and glass) in the Dominican Republic "as a means of augmenting official assistance through private enterprises." Subject felt that it was "imperative for all free nations of the Hemisphere to do all in their power to help the Dominican Republic become a true Democracy and deny it to the Communists. In this vital task, private capital must also participate actively." This is the conviction that prompted Subject to consider building the plants.

According to a memorandum to CI/OA dated 27 May 1960, from WH/3/DRAM, the inquiry had no effect on its proposed operational use.

6. One document in the 201, UFGA-12398 dated 7 November 1963, reveals that Subject was a member of a group of Latin Americans who notionally subsidized AMSCROLL (probably an asset of WH/BA). JUAN 0404 (IN 33987), 7 December 1961, one of a number of cables in Subject's 201 file, indicates that Subject took intense interest in Cuban affairs and was more than willing to obtain information on Cuban elements.

7. According to a document in Subject's 201, the Central Cover Staff had a record, Page 2128 dated 11 May 1960 in their file #3-3 in connection with WH/3/DRAM's POA/OA, but had no active or direct interest in Subject.

SKEWER-1 - Clarification of Operational Status

ACTION REQUIRED - REFERENCES

ACTION: As appropriate, per paragraphs two and three.

REF: HPSA-1955 (RYBAT) (27 September 1963)

1. A full Operational Approval was issued on 11 September 1961 for use of SKEWER-1 as set forth in the PRQ Part II submitted to Headquarters with JU-232 (18 July 1961). Notification of issuance of the OA was given the Station in DIR 12785 and DIR 12786.

If the Station judges that the above-cited PRQ Part II no longer obtains as to Subject's actual current operational status and use (Headquarters' file on Subject shows that it does not; e.g., his funding of a Station JMWAVE operation), an up-to-date PRQ Part II should be submitted in order to amend the OA issued in September 1961.

3. The Station should be guided by the provisions of CSI-F-50-17 with respect to keeping Headquarters informed of current operational contact with and use of Subject.

The Station herein outlines what it believes to be the targets for covert operations in the Dominican Republic. Included is a list of assets which the Station has for commencing operations, as well as operational leads, the potentialities of which the Station is investigating. Action taken or contemplated in regards to each of these assets or leads, is also set forth. Periodic progress reports will be forwarded to Headquarters on development of this program.

1. Pursuant to instructions given to [redacted] at Headquarters, the Station has begun to activate the persons listed in Reference B, where they are still available, and to discreetly ascertain from local contacts further operational leads. There follows a report on the progress made by the Station since [redacted] return.

2. The Station's plan of action to begin third country KUTUES operations in the Dominican Republic -- targeted primarily against the Dominican Intelligence Service and the Dominican Ruling Circles -- is as follows:-

A. Through SKEDADDLE (Operational Approval granted in HPS-4-940) to develop persons in Puerto Rico who have access to individuals in the Dominican Republic and can enter that area on a regular basis.

(1) SKEDADDLE has been contacted and advised of the activation of operations against the Dominican Republic. It must be pointed out that SKEDADDLE's attitude has cooled somewhat toward taking an active part in operations. He feels frustrated because of the long period in which he has attempted to maintain contact with assets and, at the same time, not being able to activate them. He informed that some contacts have lost interest and others no longer

have access to the target. He was advised of the importance of these operations and it is believed that he will work out in time.

(a) A review of all of the persons mentioned in Reference B. was made with [redacted] and it was decided to proceed first with the person mentioned in para. 4.g.(5), Reference B. [redacted] Because [redacted] is very well known all over this area and is considered most discreet by all who know him, SKEDADDLE has been instructed to approach him [redacted] 11/30/51

[redacted] is a senior member of the political party headed by [redacted] and a member of the local legislature. He is very close to [redacted]. Naturally, no indication of Station interest will be divulged at this time. [redacted] is considered to be a good starting point because he is the owner of many businesses in the Caribbean Area and in [redacted] and has had many persons working for him over a period of years who owe him allegiance. This includes persons in the Dominican Republic.

(2) Another suggestion by SKEDADDLE which was accepted was that he sound out two National Guard Lieutenant Colonels under his command who have access to persons traveling to and from the Dominican Republic from Puerto Rico. In private life, these men are United States Customs inspectors, who handle entry from the Dominican Republic. They are Lt. Colonel [redacted] and Lt. Colonel [redacted] of San Juan, Puerto Rico. Both of these men are loyal and have clearances from GORICK. 11/30/51

(a) SKEDADDLE will interview these men for operational leads.

(3) Interrogation of SKEDADDLE revealed that his relationship with [redacted] mentioned in para. 4.g.(2), Reference B., has deteriorated.

(a) It is believed advisable at this time to sound out [redacted] through his former colleagues, which will be done in the near future.

(4) At the next meeting with SKEDADDLE, which will take place in the next few days, he will be requested to covertly contact certain Dominican exiles (see page 3, Reference B.), resident in Puerto Rico, to ascertain the true assets they have within the Dominican Republic. It is felt that SKEDADDLE's morale must be improved prior to assigning this additional work load.

(5) Also at the next meeting, SKEDADDLE will be requested to contact [redacted] in Ponce, Puerto Rico, whose potential is described in Reference B.

B. Through local contacts develop a cadre of PUPPINE continentals located in Puerto Rico and the Dominican Republic that would have spotting and casual intelligence potential. (Please note it is not the intention of [redacted])

TO Chief, WHD

DATE

FROM Chief of Station, San Juan

SUBJECT: GENERAL Operational
SPECIFIC Dominican Republic Situation Report

REF: NPSA-497, 13 Jun 55

1. For Headquarters information, the following is a resumé of current material that is maintained in order to keep reference up-to-date and applicable should the occasion arise. Part I of reference remains the same, however, certain personnel changes outdate the operational section, Part II of reference. Under Part II, A, the Mission, Objectives and Tasks as stated in reference would be correct were the Station actually conducting operations in the Dominican Republic. However, as the Station is holding any activities in this direction in abeyance per previous correspondence on the subject, it is felt that we should restate our tasks to more accurately reflect the Station's present activity, namely, being prepared for the actual implementation of operations when the occasion arises. Further, that Headquarters may be cognizant of the Station's current activities in fulfilling these tasks, there is included a more current listing of the covert assets maintained for the future implementation of operations.

2. Under the present situation, the Station's tasks in maintaining itself in readiness for the possible initiation of operations in the future are:

a. Developing and maintaining background information on persons who are active in anti-Dominican activities in Puerto Rico who, should the occasion arise, would be potential agent material. Should anything happen to the present regime in the Dominican Republic some of these persons would undoubtedly return there and become active in politics.

b. Developing and maintaining current background information and information on the activities of persons who have contact with prominent members of the present government in the Dominican Republic and who have qualifications indicating that they are potential agent material and might be called upon to act in our behalf should the need arise.

3. The Station feels that in directing its efforts in both the above directions, it will have at least a good starting point when operations in the Dominican Republic begin. Naturally, per previous correspondence, all of these operations would be worked from outside the Dominican Republic utilizing third country methods. The Station does not believe that any of the prospective assets, other than SKEDADDLE, should become aware of our interest in them under the present circumstances.

b. A current listing of assets available as of the present date is as follows:

a. SKEDADDLE -- Situation is the same as that noted in reference. He is still considered a very good choice as a future P/A for these operations. He continues to maintain contact with Dominicans located in Puerto Rico and to keep himself aware of their activities. Most of the persons listed below are contacted through SKEDADDLE.

b. [redacted] -- Subject is still available through his place of employment. Subject has become less active in reserve activities to date. Contact with him is maintained through SKEDADDLE.

c. SKET is a commercial outfit and its writer maintains occasional contact with it.

d. NANTA-4 remains in his present position, however, he is considered better situated to assist the Station [redacted]

e. [redacted] is a contact of Station personnel. He is in the advertising business and has previously handled the account for the publicity of [redacted]. He is now planning to open an office in the Dominican Republic. Presently, he is planning a

His contacts are strictly business, and he has let the Dominican Republic Government know that he will not involve himself in any of their political machinations. They are apparently satisfied with this arrangement. Subject has indicated a willingness to report anything of interest that comes to his attention in his dealings with and in the Dominican Republic. The Station believes that his greatest potential is that of a spotter of potential agent material in the Dominican Republic. He is carried as current with that in mind.

f. The active anti-Trujillo organization here is made up of Dominican Exiles for the most part. Contact with that organization is maintained through SKEDADDLE. The possibility of potential agent material among
